

**Comments: Lisa will look at with Thede and decide on all included vs. critical**

Layer	Anch	ER	Gird	Habitat	Meeting Notes
Bkbear	X			Black bear sightings: frequent, occasional, rare	Use merged F & G Use merged F & G data, Thede getting Points only
Brnbear	X			Brownbear sightings: frequent, occasional, rare	
Eaglenst	X			Field names "Eaglesight" - only one not-null and it is "nest"	
Fishck	X			Creek Fish Habitats: anadromous	
Fishlk	X			Lake Fish habitats: stocked, beluga feeding lake, anadromous fish, rearing, overwintering	Try dfferent symbols - combine spawningin & rearing, double check against streams, Lisa may need to rebuffer
Fsckhab	X			Fish Creek Habitats: Spawningin, Rearing, Overwintering, rearing lake,	Remove...
Geese	X			Canada Goose habitat: feeding, nesting, molting	Points only
Loonnest	X			Pacific and Common Loon Habitats: Species, Nesting, Sensitive	Songbird habitat
Pscthab	X			Mature Black Cottonwood habitat	Songbird habitat
Psmxhab	X			Mixed forest with freshwater seeps	Songbird habitat
Pssbhab	X			Shrub habitat - What is "Other class? (Contains 1 polygon)	Songbird habitat
Pswdhab	X			White spruce / paper birch habitat. What is USETYPE - potential route vs. habitat? Wetland habitat - si this the one we want to use? Is there a data dictionary anywhere -	Songbird habitat
Pswthab	X			fields include: class and number	Songbird habitat
Shbird	X			Shorebird Habitat: migration, nesting, freshwater, diversity, critical, brood rearing, critical	
Watfowl	X			Critical Wterfowl Habitat: migration habitat, molting habitat, nesting, diversity of species using(?) habitat, wintering, estaurine habitat	
Airport	X			Airport exclusion area (for what?) Ted Stevens only - don't use	Remove...
wildhab_anch	X			Breaks things down by mammals, birds, and lakes. Not completely clean. Part of original atlas.	
wildhab_er		X		Breaks things down by Moose and bird area Part of original atlas.	
czm_anch	X				Remove
czm_er		X			
CZM_ta???				Is this available elsewhere?	use grczm
Possible additions from Fish & Game:					
2002 Anadromous Fish Streams (draft), source scales:1:25,000 to 1:250,000					Use for TA, thede looking in to
MESA Map Series: scale: 1:250,000					Thede checking on

MOA Streams	X	X	X	
Legacy Streams	X	X	X	
Lakes	X	X	X	
Marine	X	X	X	
Shaded Relief	X	X	X	Have draft version.
Roads	X	X	X	Probably not necessary, maybe the arterials
Annotation				

**MAP NOTES**

mesa shorebird mostly (not completely) overlaps with muni shorebird data - probably only want muni for Bowl as MESA scale 1:250,000?

Still need new bear data - what is it and what do you want to show with it?

Eagle / Bird of prey data: use "preyhbdiss"

Anadromous fish, etc: moa data appears more appropriate for our scale, moa\_streams metadata I have does not contain info on the fish\_hab field

Not complete agreement between fshck and moa\_streams - what to do?

**Habitat Topics:****Birds of Prey:**

Use "preyhbdiss"?

**Songbirds:**

Use various habitat types

**Shorebirds:**

muni (shbird) / mesa (bird99) - depending on availability

**Waterfowl:**

watfowl (bowl only)

**Loons**

loonnest

**Anadromous Fish**

fishck, fishlk, moa\_streams, scn03\_arc, snc03\_pt - issues with conformity, availability

**Bears:**

Currently only have muni data

**CZM**

have all 3 areas (ancczm, erczm, grczm)
