

<b>Theme values normalized so that each theme has the same total value:</b>						(Default)	
<b>Theme</b>	<b># of Data Sets</b>	<b>Max Val</b>	<b>Max Poss</b>	<b>Normalize</b>	<b>N Value</b>	<b>Weight</b>	<b>Max Total</b>
Aquatic Resources	5	4	20	1	20	0.3	6
Habitat	9	4	36	0.5555555556	20	0.3	6
Geotech Hazards	5	4	20	1	20	0.3	6
Human Impacts	1	4	4	5	20	0.1	2
	Total:		80				
				(Max/84)/4			
If MOA wants the ability to add new data sets to the model we will need to set up a parameter that allows changes to the Normalize formula.
